STREET BOSS®

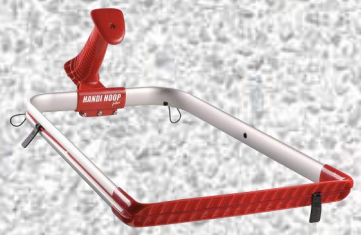
USER GUIDE

Quality assured British manufacturing

Thank you for buying STREET BOSS; the multi-functional litter collection system.

Encompassing a range of practical solutions for daily cleansing tasks; including the innovative 'Pick & Push' feature - designed to allow continuous handling and operational comfort. Highly manoeuvrable and easy to use, **STREET BOSS** has puncture proof tyres for added longevity and stability across uneven surfaces with an integrated safety brake designed to support work on gradients.

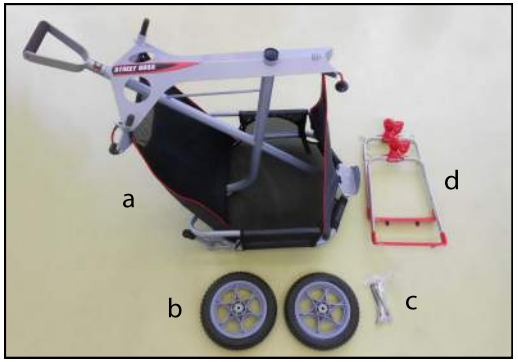


The system comprises of two **Handi Hoop *plus*** sack retentions units for quick removal; giving the operator the option to segregate litter at street level. The systems' unique tool storage facilities increase productivity - allowing the operative to undertake a range of cleansing tasks.

INITIAL ASSEMBLY

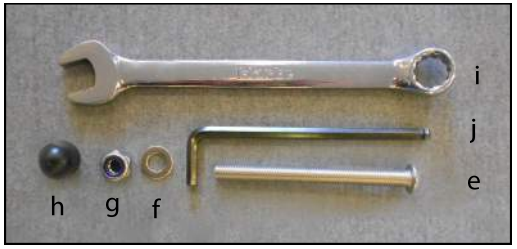
BOX CONTENTS

a) Chassis
b) Wheels
c) Fixings Kit
d) Handi Hoops x2



FIXINGS KIT

e) 2 x M10 bolts
f) 2 x M10 washers
g) 2 x M10 nuts
h) 2 x M10 nut caps
i) Spanner
j) Allen key



TOOLS SUPPLIED: Allen Key + Spanner **TIME TO ASSEMBLE: 15 minutes**

WHEEL ATTACHMENT

Using the bolt, washer, nut and nut cap, connect each wheel to the frame.

Working from the outside of the frame; thread the wheel onto the bolt, then push the end of the bolt through the frame boss. Next, thread it through the fabric panel, adding the washer and finally the nut.

Holding the spanner; tighten the bolt with the Allen key, ensuring the fabric is not snagged or gathered. Finally add the nut cap.

From the inside of the unit, the order of components are: **Bolt / Wheel / Frame / Fabric panel / Washer / Nut / Nut cap.**
